I do not have a clean drawing for the test hoods, only copy has my notes from meeting.

The 5'-4" diameter hood was used on both Tanks 3 and 9, the 4'-0" hood was used only on Tank 3.

Regards,

Bruce A. Yates Jr.

Bruce

Can you dig up the original drawings and scan them?

Thanks

Bill

See attached drawing for the dimensions of the hoods. The 5'-4" diameter hood was used on both Tanks 3 and 9, the 4'-0" hood was used only on Tank 3. Tank 3 had two vents, Tank 9 had a single vent.

Let me know if you need anything else

Thanks  
Tom
